Ashwini, Bharani, Kruttika (1)

Career : The stars are perfectly aligned for major professional recognition. For Entrepreneurs, their business strategies will hit the mark, which will leave their competitors far behind. Expect praise from seniors for your efficiency and dedication in a key presentation. For Professionals, their hard work and sharp instincts will help them to successfully complete a major project. After 17th, be careful, as confronting any workplace obstacles head-on will put you at odds with a dogmatic authority. Mismanaging and last-minute changes, while executing the plan, will bring a new launch to a complete halt. After the 25th, miscommunication will spark up conflicts with colleagues. This month, Artists will explore options in their creative field that provide true emotional fulfilment alongside financial stability.

Wealth : This month, cut out small, impulsive expenses to free up cash for bigger wins. Small but regular investments will pay major dividends. However, step away from gambling with hard earned cash in speculations or wagers. After 17th, you may be susceptible to misleading financial advice, resulting in disappointing returns. Investing in Real estate will cause costly financial turbulence. Consider starting a new automated savings plan, to harness your impulsive spending. After 25th, an old loan may re-surface or a relative will ask for financial support.

Personal : Speak your piece. You may not be able to deal with certain issues with housemates or close family, under the carpet anymore. If couples are careful, they will end up taking all emotional tension or pent-up frustration on their partner. Women will benefit, if they do not make any major, impulsive changes to their personal style for next month. You will find comfort, visiting familiar vacation spots or travelling with people from your past. After 17th, students will feel an unexpected lack of motivation or a dip in confidence, regarding their academic goals. Old complaints and grudges will re-surface out of nowhere, escalating conflicts with loved ones. After 26th, for Singles, a past lover or an unresolved relationship issue

Health : Keep things simple! You will need to pay a little extra attention to your digestion and blood pressure issues this month. Mothers' health will require your attention. Massaging a little warm oil into the soles of your feet, before going to bed, will help you overcome any anxiousness or stress. After 17th, short, active breaks during the day will prevent mental fatigue. Be careful not to over-work yourself, as you help your spouse back to good health.
